Large HD Display with Full Smartphone Connectivity.

KW-Z1000W
Digital Multimedia Receiver featuring 10.1" HD Screen

Smartphone Integration

Apple CarPlay® - Connect Wirelessly or via USB

A smarter, safer and more fun way to use your iPhone in the car. Apple CarPlay gives iPhone users an intuitive way to make calls, use Maps, and listen to music with just a word or a touch.

Some features, applications, and services are not available in all areas. For details, see: www.apple.com/ios/feature-availability/#applecarplay-applecarplay

Android Auto™ - Connect Wirelessly or via USB

Android Auto is a simpler, safer way to use your phone in the car. Get all your favorite maps, media, and messaging apps on your car display.

Some Features, applications, and services are not available in all areas. For details, see: www.android.com/auto

Wireless Mirroring for Android Phones

Wireless Mirroring for Android Solution for seamlessly displaying and controlling your smartphone apps on a screen without cables on select Android devices. *Selected models only

HDMI™ Mirroring for Smartphones

Display your smartphone screen on the KW-Z1000W's display via an HDMI cable and third party adapter.

*Optional HDMI cable and smartphone specific third party adapter are required (sold separately).

Large & High Definition Display (1280 x 720)

The large screen 10.1" HD display is about 2.4 times higher resolution than the conventional WVGA panel. With this display, jagged edges are eliminated in the displayed image, providing sharp and vivid images. In addition, the color development increases, and the individual colors of the image become clear, so you can enjoy high definition images.

Optical Bonding Technology

The optical bonding technology minimizes the refractive light index by bonding the liquid crystal module and clear panel. It suppresses the reflection of the screen and maintains high visibility. In addition, since optical bonding does not have an air layer between the liquid crystal module and the clear panel, display visibility is not impaired by internal condensation, further enhancing its durability.

Reflection Reduction

Condensation Prevention

Adjustable 3way Display Position

Fully adjustable display allows you to change the height, angle, and depth for easy vehicle fitment.

4-Camera Inputs

Enable users to add front and rear cameras along with an additional 2 front or blind spot cameras, further enhancing driver safety and convenience.

Dynamic GUI

Various information including time, photos, album art images, or iDataLink Maestro™ and more, can be displayed on the home screen in a big, easy to view way. Swiping the monitor with two fingers lets you split the screen or change the information window.

Big Widget

iDataLink Maestro

Compass

Split Widgets

Date / Time + Compass

USB Audio + Sound Meter

Dynamic GUI

KW-Z1000W is compatible with iDataLink Maestro RR and RR2 (sold separately)*. Both Maestro modules provide seamless retention of factory safety and camera systems, steering wheel controls and add performance gauges in most modern vehicles. In addition, the RR2 provides three programmable outputs that can be used to activate things like a winch or a light bar from KW-Z1000W's on-screen controls. Radar detector information can also be displayed on the screen when used with a compatible K40 or ESCORT radar detector system.

*Available features may vary depending on the vehicle. The iDataLink Maestro RR and RR2 are sold separately by Automotive Data Solutions. ESCORT compatible with Maestro RR2 only. To find an authorized dealer please visit <https://maestro.idatalink.com/>

JVC Portal App Compatible

Display images saved on your smartphone on the KW-Z1000W with JVC Portal App now available for both iOS and Android. You can set your favorite image on the wallpaper of the receiver and enjoy the slide show.

*For more information, visit www.jvc.net/car/app/

High Resolution Audio

You can enjoy playback of 96kHz/24bit audio which contains about 3 times the musical information of music CDs (44.1kHz/16bit), or even 192kHz/24bit High-Resolution Audio files with their approx. 6.5 times data volume. With sound quality approaching the original master recording itself, you will experience the presence and ambience of a tune the way CD simply cannot.

High quality Bluetooth® streaming with LDAC™

LDAC™ sends approximately three times more data (at the maximum 990 kbps transfer rate) than conventional Bluetooth® audio for superior wireless listening. Unlike other Bluetooth compatible coding technologies such as SBC, it operates without any down conversion of the Hi-Res Audio content*1, and allows approximately three times more data*2 than those other technologies to be transmitted over a Bluetooth wireless network with unprecedented sound quality, by means of efficient coding and optimized packetization.

*1: excluding DSD format contents*2: in comparison with SBC (Subband Coding) when the bitrate of 990kbps (96/48kHz) or 909kbps (88.2/44.1kHz) is selected

USB Type-C® 5V 3.0A Current Charging (KW-M875BW)

USB Type-C® Compatible. Maximum power supply 5V /3A.

*Depends on the connected device.

Time Alignment

By selecting the speaker type and the distance to the center of the listening position, the receiver will automatically adjust the timing of the sound output from each of the speakers so that the sound from each of the speakers will arrive exactly at the same time to the listening position.

The different distances from each speaker to the driver causes a delay in the sound.

The Time alignment allows you to digitally delay the closest speakers so that every speaker reaches your ears at the same time.

Shallow Chassis Design

The reduced depth of the chassis contributes to a weight reduction and facilitates easier installation.

Shallow Chassis / Digital Multimedia Receiver

Regular Chassis / DVD Receiver

iDataLink Maestro Compatible

iDataLink Maestro RR or RR2 (sold separately)* enable the retention of the factory steering wheel audio controls, factory amplifier, secondary displays and can even display vehicle information (performance data, climate controls, battery voltage, etc.) when connected to compatible vehicles. Radar detector information can also be displayed on the screen when used with a compatible K40 or ESCORT radar detector system.

*Available features may vary depending on the vehicle. The iDataLink Maestro RR and RR2 are sold separately by Automotive Data Solutions. ESCORT compatible with Maestro RR2 only. To find an authorized dealer please visit <https://maestro.idatalink.com/>

KW-V350BT

Multimedia Receiver featuring 6.8" Clear Resistive Touch Monitor

KW-M150BT

Digital Multimedia Receiver featuring 6.8" Capacitive Touch Monitor

K2 Technology for Enhanced Digital Sound Quality

K2 is a JVC original technology that reproduces the original master sound by expanding the frequency range. For example, K2 will expand the digital data of the audio CD recorded at 44.1kHz to 192kHz. It is also possible to recreate the high-frequency range above 20kHz that is cut during the CD formatting.

Remote Control App

Control the receiver's source directly from the smartphone using simple finger gestures with "JVC Remote" app* (now available for both iOS and Android). You can even customize your audio setting, and see detailed source information such as song title, artist name and album art etc. from the smartphone.

*JVC Remote S
For more information, visit https://www.jvc.net/car/app/jvc_remote_s/

*JVC Remote
For more information, visit www.jvc.net/car/app/jvc_remote/

USB Mirroring for Android

Seamlessly display your Android phone on the JVC screen via USB. Touch control is supported from both screen and smartphone.

Capacitive Touch Monitor

Capacitive touch monitor provides high clarity and a more sensitive touch control, with greater accuracy.

13-Band Equalizer

You can change the EQ curve by simply dragging your finger on the screen. Use the 13-band equalizer to get the sound you like.

Key Customize

Lets you easily access frequently used functions. Two options are available.

1. Function Menu Customization

Functions registered in the Function Menu can easily be called up by simply pressing the "FNC" key.

2. Favorite Key

Press and hold the "FNC" key to directly access the function registered for the Favorite Key.

Gesture Touch Control

Just touch and move your finger over the screen for various operations corresponding to your finger movements. Intuitive control provides safer operation for in-car entertainment.

2 Phones Full-Time Connection

You can connect two phones full time via Bluetooth, with secure and simple pairing. Calls to either phone can be received by a push of a key on the receiver.

Audio Streaming & Control (A2DP, AVRCP)

With built-in Bluetooth audio, you can listen to and control songs stored on your iPhone or Android smartphone – all wirelessly. Extra high quality playback can also be achieved with FLAC compatibility that allows digital audio to be compressed in a lossless format.

Low Battery Information

When the battery of the connected Bluetooth device runs low, a beep sound is heard and "LOW BATTERY" appears on the receiver.

JVC Streaming DJ

Connect up to 5 Bluetooth devices simultaneously, so you and your friends can take turns streaming music like a DJ. Cue up your hottest playlist and press play!

Amazon Alexa Compatible

With Alexa on your JVC Receivers, you can use your voice to control your music and much more. Using Alexa is as easy as asking a question. Just ask and Alexa can play your favorite song, skip to the next track, change the volume, read you the news and more.

Available Functions

- Play Music
- Check Weather
- Check Local News
- Question about general things
- Timer / Alarm

Built-in HD Radio

HD Radio is a Digital technology that allows a radio station to transmit more information in the same radio wave, enabling higher quality sound and additional content. HD Radio technology makes AM Stations have FM Station-like sound quality, while FM Stations are broadcast with CD-like sound quality. Unlike typical FM or AM transmission, HD Radio has crystal clear reception with low noise and no audio distortion.

DR Series Speakers Black Edition Superior, Reliable Performance

Combines high output sound and durability. Easily upgradable from factory-installed original speakers.

High Output & Durability

Carbon Mica Cone

Rigid and lightweight carbon mica material provides highly responsive, clear and undistorted sound reproduction.

Wide Grille Openings

Grille's opening ratio is 30% wider than the conventional model, enabling increased durability and clear sound.

Conventional DR Series

Balanced Neodymium Tweeter

Provides detailed high range and smooth mid range. Installable vehicle types are greatly increased thanks to its shorter height.

Hybrid Surround

Rubber Coated Cloth with increased mobility enables high efficiency and improved follow-up to audio signals.

Small-Design Tweeter Cover

Newly developed small cover significantly reduces areas that interfere with the woofer cone. High quality sound is assured.

Great Factory Replacement

Installable vehicle types are greatly increased thanks to its shorter height.

Mud, Sand, Dirt, Rocks or Water - JVC Amplifiers are BUILT TO LAST!

Waterproof

Dustproof

Rustproof

Vibration Proof

IP67/IP66 Waterproof & Dustproof

IP67/IP66 certified. The amplifier can be submerged up to 1 meter (or 3.3 feet) in water for 30 minutes, and can resist high-pressure, heavy sprays of water. The amplifier is also fully sealed against dust entry.

Rustproof - ASTM B117

ASTM B117 salt spray (or salt fog) corrosion test simulates harsh conditions in a salt water environment to ensure the amplifier does not corrode or fail in these harsh conditions.

Vibrationproof

Vibration can be damaging to an amplifier if it is not designed to withstand it. This amplifier passes a 3 axes multi-frequency vibration test.

CS-DR6201MW

- Features
- Water-resistant cone woofer
 - UV resistant grilles
 - Composite speaker baskets
 - Stainless steel hardware
 - Grille with a large open area

Type	6-1/2" 2-Way Coaxial
Peak Power	150W
RMS Power at 4Ω	50W
Frequency Response	60Hz - 18.4kHz

CS-MS620

6-1/2" 2-Way Coaxial Speakers featuring Water Resistant Woofers / UV Resistant Grilles / Peak Power 150W / RMS Power 50W

- Features
- Water-resistant polypropylene cone, 1-inch aluminum voice coil, balanced dome tweeter
 - Surround: Rubber - for durability in harsh environments, UV resistant grilles

Type	6-1/2" 2-Way Coaxial
Peak Power	150W
RMS Power at 4Ω	50W
Frequency Response	60Hz - 20kHz

CW-DR1040ML

10" 4Ω Subwoofer for Marine / MotorSports / 21-color LED Illumination / Waterproof (IPX6*) / Peak Power 1300W / RMS Power 300W

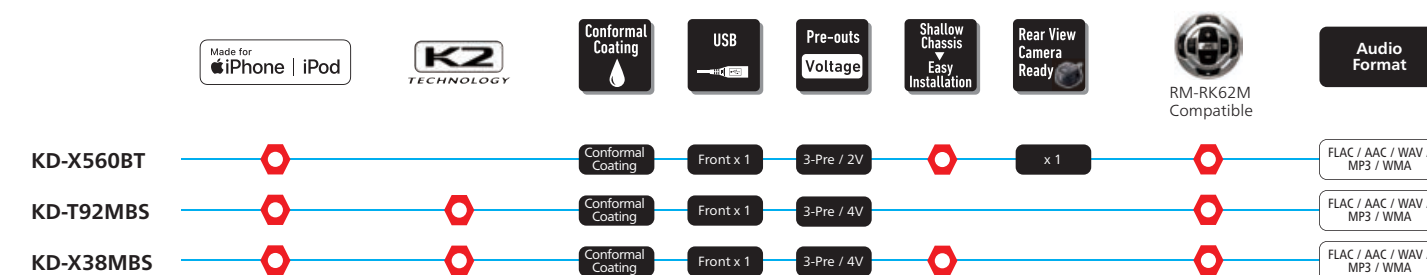

- Features
- Waterproof polypropylene cone
 - 4-layer voice coil
 - 4Ω Impedance
 - Sensitivity 84 dB/W at 1m
 - RF Remote control included

Type	10" Subwoofer
Peak Power	1300W
RMS Power at 4Ω	300W
Frequency Response	40Hz - 300Hz

*Equivalent to IEC standard publication 529 IPX6 protection against water-jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect. Subwoofer only.

Features Comparison

Dashboard Camera KV-DR305W

- 2.7" color TFT
- Recording Mode : Continuous / Event / Manual
- Video Format : H.264(mp4)
- Camera dimensions (WxHxD): 3-1/4" x 2-1/16" x 1-1/4"
- Weight : 3.1oz (Camera only)

• Structure Overview

Compact but Powerful

Full HD Recording 1920 x 1080
WDR Technology
 Wide Angle Lens **F2.0**
 Built-in **Wi-Fi / GPS**
Smartphone Linkage via Wi-Fi

Rear View Camera KV-CM30

- Waterproof design
- 1/4" color CMOS sensor with effective 380,000 pixels
- Flexible mounting bracket included
- Camera dimensions (WxHxD): 23.4mm x 23.4mm x 23.9mm
- Weight: 21g (Camera only)

Wireless Charging Magnetic Car Mount KS-GC10Q

Compatible with all Qi-certified receiver products, including smartphones and mobile phone covers.

- Secure Magnet
- Rapid Charging
- Safety Features : Foreign Object Detection / Over Temperature Protection / Over Voltage Protection / Overload Protection
- Flexible viewing angles

Qualcomm® Quick Charge™ is a product of Qualcomm Technologies, Inc.

• Multiple Mounts Included

Included Accessories

Suction cup dashboard car mount / Magnet plate / Air vent car mount / Dash mounting plate / Safety strap / USB car charger / USB type-C to type-A cable

Specification

[Qi Charger] •Input:DC5V/2A, 9V/1.6A •Power:10W Max •Dimensions:68.0(W)x102.0(H)x24.8(D)mm [USB Car Charger] •Input:DC12V/24V, Output:5V/3A, 9V/2A, 12V/1.5A QC3.0

Air Purifier

KS-GA100

HEPA Filter with 3-stage filtration / Motion Activated Controls / Portable enough for the car cup holder

- Releases negative ions and deodorizes unpleasant smells in the car.
- A high-performance HEPA filter efficiently collects PM2.5*, pollen, and fine dust, at a particle capture rate of 99.5%.
- *PM2.5 are defined as fine inhalable particles, with diameters that are generally 2.5 micrometers and smaller.
- A high speed fan absorbs dirty air from any direction.

- Motion Activated Controls : Easily adjust the wind speed by shaking your hand above the purifier.

Specification

[Main Unit] •Operating voltage : DC 5V •Power consumption: 1.4W(Normal), 1.7W(Strong)
 •CADR : 4.5CFM(7.7m³/h) •Diameter: 2-5/8"
 •Weight : 0.36kg(0.8lbs) [USB Car Charger]
 •Operating voltage : DC 12V / DC 24V •USB output : DC 5V / Total 2.4A max.

Replacement Part (Optional)

HEPA Filter
KS-GA10F

HDMI Type-A to Type-D Cable KS-U70

Lightning - USB Cable KS-U62

Wireless Remote Control for Multimedia Receivers RM-RK258

Wireless Remote Control for CD and Digital Media Receivers RM-RK52
